

Pacific Wildlife Care's mission is to support San Luis Obispo County wildlife through rehabilitation and educational outreach. We envision a community aware of and responsive to wildlife and wildlife issues.

- PWC is a primary resource in San Luis Obispo County for wildlife concerns.
- Volunteers provide ongoing education and training to our community.
- The Morro Bay Rehabilitation Center is committed to the highest standard of care in the field of wildlife rehabilitation and the humane treatment of all wildlife.

*"We believe it takes an entire community, working in partnership, to preserve and ensure the humane treatment, rehabilitation and care of our vital wildlife."*

Call our hotline at 805-543-WILD (9453)
